

SHIP MATCH

The object of the game is to collect as many ship sets as possible.

1. Cut out two sets of ship cards.
2. Shuffle the deck and deal out all the cards.
3. Each player must place any complete sets of ships they have face up in front of them.
4. Next, a player chooses one card from a player on their left. If they complete a set they must place it face up.
5. Now, that player must offer his hand to the player on the right, and so on.
6. The player with the most complete sets wins.
